There are many causes of acne breakouts including over active hormone production, environmental pollution, stress, diets high in refined sugars and starches and others. Willow Bark Daily Renewal Cream **Order Code - DRFC**

Ideal for all skin types

The average person sheds between 30,000 to 50,000 skin cells each day. This process ensures our skin stays young, fresh and vibrant looking. However, as we get older this natural shedding process becomes less efficient. Dead skin cells can then build up and cause our skin to develop a dull, dry lifeless appearance. Dermatologists recommend adding regular exfoliation treatments to your daily skincare regimen to correct this problem. Willow Bark Daily Renewal Face Cream is specially formulated for this purpose. Enriched with Willow Bark extract and packed with potent antioxidants this cream will gently remove dead skin cells to help give your skin a more fresh, radiant and youthful appearance. It will also help reduce the appearance and depth of aging lines, calm skin redness, reduce excess sebum production and smooth bumps and rough patches of skin. Use daily to help strengthen your skin's ability to fight off the signs of aging and reveal the youth within.
